DETAILED OFFICE ACTION

Faxing of Responses to Office Actions

In order to reduce pendency and avoid potential delays, TC 3700 is encouraging FAXing or responses to Office Actions directly into the Group at (571) 273-8300. This practice may be used for filing papers, which require a fee by applicants who authorize charges to a PTO deposit account. Please identify the examiner and art unit at the top of your cover sheet. Papers submitted via FAX into TC 3700 will be promptly forwarded to the examiner.

1. Claims 31-45 have been amended for further examination. Claims 1-30 have been canceled.

Allowable Subject Matter

2. Claims 31-45 are allowed.

3. The following is a statement of reasons for the indication of allowable subject matter: No prior art of record discloses or fairly suggest a magnetic clip marker for engaging and marking a book page including magnetic members; a pair of wall members of unequal length joined together at a throat to define an integral structure; wherein the wall members comprise a base portion to define the throat as a junction between the wall members; a cover member disposed along the interior surface to form a continuous layer extending from a first terminal end around the throat to a second terminal end; and including all of the other limitations from the independent claims.

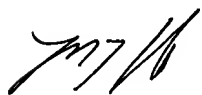

Berglof et al is the closest reference that is similar to applicant's invention. However, Berglof et al does not disclose a pair of wall members of unequal length, joined together at a throat to define an integral structure exhibiting a overlapped normal working position, the wall members further providing a continuous interior surface extending between the throat and terminal ends of the wall members, and wherein the wall members comprise a base portion adjacent the terminal ends and a clip portion overlapping the base portion to define the throat as a junction between the wall members.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Smith, and Farrington disclose similar clip markers.
